

Clear Shield Paint Protection Film  
Protect your cars finish

Clearshield is the latest, most advanced development in automotive paint finish protection. This nearly undetectable, protective film is designed to resist impact from the everyday damaging road hazards such as gravel, debris, stones, road salt and even insects.

Undetectable, protective film for the scratch prone, painted areas of your vehicle, an alternative to car bras & bug shields.

- Protects Hoods
- Protects Bumpers
- Protects Mirrors
- Insect stains and abrasions
- Scratches and nicks
- Small road debris damage
- Winter road salt and sand

Clearshield is ComputerCut according to your vehicle's make and model so it fits like a glove on the most chip-prone surfaces, such as the hood, mirrors and bumpers, requiring no drilled holes or special fasteners like other protection products. So, while you won't even notice Clearshield is there, it will be constantly hard at work helping to protect your vehicle from costly chips, nicks and scratches. Best of all, Clearshield is backed by a strong, 5-year warranty and requires no special maintenance - simply clean, wash and wax your vehicle the same way you always have.
